Saturday, July 20 • 10 am to 3 pm

WHEATON AND GLEN ELLYN

Saturday, July 20 · 10 am to 3 pm

Locations do not need to be visited in any specific order.

A Jackson Residence

340 Redwood Ct • Wheaton, IL 60189

A natural elevation change was calling for something beyond more trees or shrubs in the Jacksons' backyard. As design plans started for the landscape, the Jacksons knew they wanted to incorporate the sound of running water. They took a leap of faith and asked Aquascape Construction to install a Pondless Waterfall, which quickly became the focal point of the space. Located near the adjacent sunroom, the view of the waterfall is easily enjoyed from inside the home while large doors and windows invite the melodious sounds to enter. The family delights in seeing the flock of birds that enjoy a little fun and refreshment in the water. Patio yoga and rock sitting are newfound joys that were discovered once the water feature was installed.

B Shebik Residence *≈ Pond Central*

517 Robinwood Ln • Wheaton, IL 60189

Improving their garden spaces is an ongoing project for the Shebiks, and it comes as no surprise that a water feature would become a must-have attraction in their landscape. The home had a koi pond but after losing some prized trees, the look and feel changed and the Shebiks decided a meandering waterfall was a better option for their now sunny space. The family especially loves the sight and sounds of birds playing in the water. A bridge crossing the stream provides opportunity to enjoy the stream from both sides of the bank.

WHEATON AND GLEN ELLYN

Saturday, July 20 · 10 am to 3 pm

C Theriault Residence

929 Oakwood Ct • Glen Ellyn, IL 60137

Beautiful, hand-selected, weathered limestone cuts into the landscape to provide a 25-foot cascading course of water that leads you on a musical journey through the Theriault's backyard. Six waterfall drops create interest and drama in this stunning outdoor oasis. A stone slab bridge invites you to explore further and revel in the sights and sounds of the waterfall that flows toward the home's walk-out basement, providing magnificent views from inside the house.

D Sirovatka Residence

261 Regent St • Glen Ellyn, IL 60137

Jeanne and Barb had water gardens in the past and after moving to their current location, decided to install a pond with a waterfall. They love watching their fish and get excited each time a new waterlily blooms. They met Aquascape Construction at the Chicago Flower and Garden Show and were anxious to enjoy a new water feature. Barb and Jeanne love their pond and are happy they never have to weed it!

F Ransford Residence

731 N Main St • Glen Ellyn, IL 60137

Water surrounds this Tudor-style home like a moat wrapped around a castle. The homeowner is passionate about his 10-year old water feature in his tree-lined landscape. A 50-foot man-made stream hugs the home and looks like a tributary off a natural stream that runs through the property. In total, three water features were installed year after year to get just the right look. Goldfish in an 8'x10' ecosystem pond provide pops of color below the leafy, green canopy. The driveway crosses the stream twice, and foot bridges span the natural-looking man-made stream for easy access to the home. You'll feel a sense of enchantment as you wander this amazing property.

E Kurtz Residence

583 N Main St • Glen Ellyn, IL 60137

The Kurtz family inherited their pond from the previous owner when they purchased their house two years ago. The children took to the pond and waterfall immediately, floating sailboats and tossing pebbles into the water to see them splash. The water feature is a creative way to accommodate the grade change of the yard and the family enjoys watching the pond change throughout the seasons as different plants bloom in and around the pond.

welcome to AQUASCAPE

WATER GARDENING STORE AND INSPIRATION CENTER

901 AQUALAND WAY, ST. CHARLES, IL 60174 • (630) 659-2057

Join us for Aquascape Pond Camp

Saturday, June 22, 2019

Time: 9 a.m. to 4 p.m.

Location: 901 Aqualand Way, St. Charles, IL

Cost: \$50 per person

Learn how to install three beautiful water features when you attend Aquascape Pond Camp on June 22nd!

This is a hands-on opportunity to learn how to install an Aquascape ecosystem pond, decorative fountains, and Patio Ponds by TEAM Aquascape, the leading experts in the water gardening industry! Get your hands dirty and participate, or feel free to observe and take notes. You'll walk away with the knowledge and confidence to install a water feature in your own yard!

Register today!

Last day to register is June 19th, 2019.
