Saturday, June 15 • 10 am to 3 pm

CAROL STREAM AND WEST CHICAGO

Saturday, June 15 · 10 am to 3 pm

Locations do not need to be visited in any specific order.

Pearson Residence

A Pearson Residence *~ Pond Central* 226 Hawk Hollow Dr • Bartlett, IL 60103

This is one water feature you need to see to believe! When you pull up to the Pearson home you're innocently unaware of the paradise that awaits you in the backyard. Five waterfalls sing their choruses as you enter this oasis with a 6,600 gallon ecosystem pond. A tree pergola towers above the stone patio with walkways inviting you to explore every nook and cranny of this watery wonderland. Be sure to notice the Pondless® Waterfall that replaced a window well just outside the Pearson home office!

B Heeley Residence 1306 Silver Ct • Bartlett, IL 60103

One of the first Aquascape family water features, this pond was from our "old school" pond builders, Gary and Greg Wittstock back when a garbage can was a filter and a skimmer! Rehabbed numerous times, a waterfall was added to the property at the side of the house. Everyone's favorite brass mushrooms perch atop a sub-surface AquaBasin®. The Heeleys are avid gardeners and their yard proves it!

Heeley Residence

CAROL STREAM AND WEST CHICAGO

Saturday, June 15 · 10 am to 3 pm

C Watson Residence

623 Catalpa Ln • Bartlett, IL 60103

The sound of running water in the garden was the main inspiration for the pond and waterfall at the Watson home. They've been pond owners for 40 years, currently enjoying their fifth generation pond installed by Aquascape Construction. The Watsons love the curves and turns of the waterfall, amazed at the artistry that goes into the design. For them, it's the little things that count – the sound of the water, chirping birds, swimming koi, and the pond lights in the evening. Friends are amazed when they see the exquisite water garden in their backyard.

D Kirchheimer Residence

1108 Arlington Ct • Hanover Park, IL 60133

The Kirchheimers were motivated to include a water feature in their landscape after adding a sun room to their home where they've resided for 41 years. Like many other pond hobbyists, they wanted to change and enhance their outdoor living space by bringing the pond closer to the patio. Aquascape Construction made the changes about 7 years ago, and then the family decided to add a bog which creates an even more natural setting while purifying the water. The Kirchheimers feel like they're in a forest preserve when relaxing by the pond watching the fish. Special memories continue to be made at their home when their granddaughter visits and feeds the fish. She can't help but step into the pond to do a bit of exploring!

E Kozack Residence

862 River Dr • Carol Stream, IL 60188

A beautiful pond and waterfall replaced a backyard pool at the Kozack home last summer. The water feature bug bit when the owner's mother had her own pond installed by a very young Greg Wittstock. The Kozacks knew they wanted a larger pond for fish, along with a bridge and stream to create a tranquil space to relax and unwind. They were surprised to discover how much they love the beauty of the larger rocks at the pond's edge. Their new water feature gives them reason to continue working on the rest of their landscape to create a personal paradise they can enjoy for years to come.

F Cerwin Residence

357 Shelburne Dr • Carol Stream, IL 60188

An aquarium hobbyist longed for a backyard pond to expand upon a passion for fish. The first water feature at their home of 38 years was a DIY project. After that, the Cerwins called the pros to create a larger and deeper water feature. Two cascading waterfalls and a meandering stream add the music of water to the landscape while also working to mask the sound of nearby traffic. The couple were surprised at the arrival of new froggy friends but welcomed them into their watery landscape. Evenings and weekends are spent enjoying the pond outdoors by the firepit. When winter arrives, the Cerwins enjoy the view from inside their home.

Kelly Residence

G Kelly Residence

0N430 Indian Knoll Rd • West Chicago, IL 60185

The Kellys have two water features and each of them is unique in the way that they interact and enjoy them. The front pond, waterfall and stream are the entrance way to the house. It strikes up conversation and sets the mood for visiting friends or family. The top waterfall is just outside their living room window. They enjoy rolling the window open and listening to the sound of the cascading water traveling throughout the front rooms of the house. The backyard basalt fountain receives compliments from guests because of its scaled-down size and location in a perennial bed just off the deck. The fountain provides a great sound and backdrop at night with the lights glowing off the wet stones ... especially when kicking back around the campfire.

H Mondrala Residence

28W310 Trieste Ln • West Chicago, IL 60185

Fifteen tons of granite boulder and two tons of fieldstone create this 60-foot meandering stream, carved into the topography with twists and turns before it empties into a 16'x22' ecosystem pond. Wildlife is important to the homeowners, so a slower moving stream was incorporated providing ease of access to resident critters. A bridge traverses the water feature leading to a cozy fire pit for additional outdoor enjoyment. LED lights extend viewing hours well into the evening for maximum enjoyment.

welcome to AQUASCAPE

WATER GARDENING STORE AND INSPIRATION CENTER

901 AQUALAND WAY, ST. CHARLES, IL 60174 • (630) 659-2057

Join us for Aquascape Pond Camp

Saturday, June 22, 2019

Time: 9 a.m. to 4 p.m.

Location: 901 Aqualand Way, St. Charles, IL

Cost: \$50 per person

**Meet YouTube Celebs
TEAM Aquascape,
Greg Wittstock, The Pond Guy
& Paul Cuffaro**

Learn how to install three beautiful water features when you attend Aquascape Pond Camp on June 22nd!

This is a hands-on opportunity to learn how to install an Aquascape ecosystem pond, decorative fountains, and Patio Ponds by TEAM Aquascape, the leading experts in the water gardening industry! Get your hands dirty and participate, or feel free to observe and take notes. You'll walk away with the knowledge and confidence to install a water feature in your own yard!

Register today!

Last day to register is June 19th, 2019.
aquascapeconstruction.com/aquascape-events/pond-camp

Visit our state-of-the-art Water Gardening Store and Inspiration Center for all your pond and water feature needs. Our breathtaking displays will inspire you to create water features in your own yard to enjoy for years to come. Our professional staff will assist you in making sure you have everything you need to be successful at water gardening, whether you want to add a decorative fountain to your landscape or a beautiful ecosystem pond with waterfalls. Come shop our wide selection of pond supplies, live fish, aquatic plants, fish food, books, and more.

When you visit our full-service store, be sure to tour both our indoor and outdoor water features. You'll see ecosystem ponds, Pondless® Waterfalls, an array of decorative fountains, and rainwater harvesting systems. Don't forget to explore our 10-foot waterfall with a grotto for behind-the-falls viewing!
